PROFILE

I design, develop and manage practical web applications and business systems for tailoring, retail, e-commerce and organizations in Nepal. My work connects hands-on business experience with software that supports day-to-day operations.

AREAS OF WORK

Web & app development · ERP / POS / inventory · E-commerce · CRM
Sales and billing · Production workflows · Business reporting

BUSINESS EXPERIENCE

10+ years of experience across practical business and operational work.
Sunlight Tailors - Custom tailoring and stitching, measurements, fittings and garment workflows.
Sunlight Traders - Trading and retail, stock, purchases and daily business operations.

COMMUNITY & LEADERSHIP

Dhanuk Organization - Organization leadership, with a focus on community, cultural and social connection.

MISSION

Help young people in Nepal learn practical skills they can use to find work or start earning on their own. Connect learning with real work through tailoring, digital tools and everyday business operations.
